

TRUFLEET PLUS

Track and manage people, vehicles, and assets, both indoors and outdoors using your two-way radio network.

Location Tracking and Fleet Management for Avtec

Teldio TruFleet Plus offers tracking, monitoring, and management of your employees, vehicles, and assets. Its rich, intuitive interface is designed to improve communication, enhance productivity, and increase safety. Geo-fencing, location, and event data can be leveraged to seamlessly automate workflows using notifications and intelligent triggers.

Indoor and outdoor location tracking, messaging, and alarm management for Avtec

Strengthen your Avtec dispatching solution with Teldio TruFleet Plus by enabling location tracking for both indoor and outdoor environments, radio messaging, emergency alerting, and video integration - all accessible within your Avtec Scout Console™.

LOCATION TRACKING

Track the location of employees, assets, and vehicles, in both indoor and outdoor environments.

MESSAGING

Easily send messages to your employees and specified groups via two-way radio, email, and more.

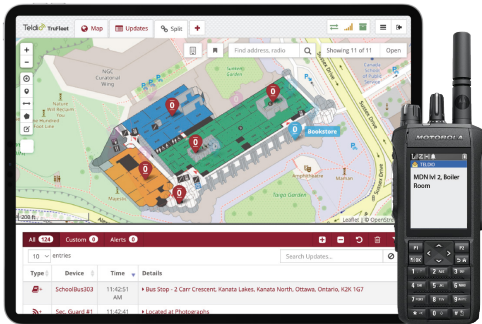

RADIO ACTIONS

Place calls to your radio users or enable/disable radios directly from the TruFleet map for improved response times.

Enhance Your Motorola MOTOTRBO™ Radio and Wave Devices With Location Capabilities and Automation

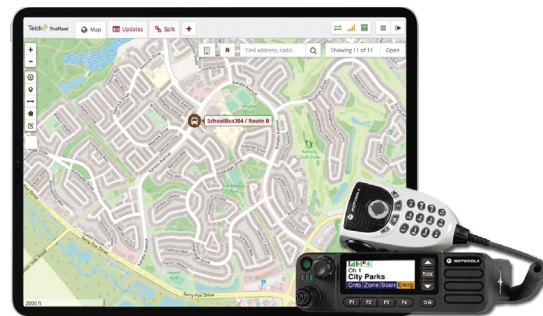

Stay connected to your employees, vehicles, and assets around the clock by tracking the location and movements of MOTOTRBO™ radios and Wave devices. Teldio TruFleet Plus improves communication with your remote workers to enhance productivity ensuring the safety of your employees and valuable assets.

INDOOR TRACKING

Monitor Your Employees' Location and Safety

Track the location of your personnel to quickly find employees in an emergency, or direct the closest person to an event.

OUTDOOR TRACKING

Track Your Fleet and Valuable Assets

Know the location of your fleet of school buses, utility trucks, or any vehicle or asset equipped with a MOTOTRBO™ radio or Wave device.

Avigilon Unity Video Integration

Enhance Unity Video's location information by enabling Teldio TruFleet Plus to highlight the location of the emergency. Whether via radio location or emergency button press, when an emergency occurs the TruFleet map automatically brings up the video feed closest to the event location.
